OBJECTIVE

Full Stack Developer and AI/ML practitioner (MERN, Django REST, Java Spring Boot, LLM/RAG) seeking a Software Engineer role at TCS where I can apply strong problem-solving and development skills. Available to join immediately.

EDUCATION

B.Tech, Computer Science and Engineering - All Saints College of Technology, Bhopal | 2023 - 2027 | CGPA: 7.79

TECHNICAL SKILLS

Languages: Python, Java, JavaScript, SQL, HTML, CSS, PHP
Frameworks: React.js, React Native, Node.js, Express.js, Django, Django REST Framework, FastAPI, Spring Boot, Laravel, Bootstrap, Tailwind CSS
Databases: MySQL, MongoDB, MSSQL
AI/ML: Scikit-learn, Pandas, NumPy, Matplotlib, Seaborn, LLM and RAG pipelines; learning LangChain, LangGraph, ChromaDB, MCP
Tools: Git, GitHub, Postman, REST APIs, JWT Authentication, VS Code
Learning: Data Structures and Algorithms, OS, DBMS, Computer Networks, System Design

EXPERIENCE

Full Stack Developer - Oasis Academy, Bhopal | 2025 - Present

- Built an OPD Management System with an LLM-powered RAG assistant (Django REST Framework + React) for natural-language search over patient records.
- Designed secure, scalable REST APIs with optimized database schemas.

Trainee Frontend Developer - BlackCherries Innovative Lab LLP, Bhopal | Jan 2025 - Dec 2025

- Built a History Learning Platform with user authentication (Java Spring Boot backend, HTML/CSS/JavaScript frontend) and designed its UI/UX; completed a 12-month internship with live client project delivery.

Python Backend and UI/UX Developer - Wenodo Digital Solutions, Bhopal | 2024 - 2025

- Developed and optimized REST APIs with Django REST Framework, reducing response latency; built responsive pages with HTML, CSS, Bootstrap and JavaScript.

Co-Trainer, Python and Web Development - Orange Antelopes, Bhopal | Jul 2024 - Nov 2024

- Trained learners in Python, Django, SQL, web development and AI/ML basics; reviewed student code and mentored full-stack projects.

PROJECTS

- **OPD Management System with LLM RAG Assistant** | Python, Django REST Framework, React, LLM, RAG - hospital platform with natural-language querying of patient records.
- **Employee Management System** | MongoDB, Express.js, React, Node.js - HR platform with attendance, analytics dashboard, JWT authentication and REST APIs.
- **E-Commerce Web Application** | Django REST Framework, React, MySQL, JWT - storefront with product catalog, secure login and order management.
- **House Price Prediction** | Python, Scikit-learn, Pandas, NumPy - regression pipeline evaluated with RMSE and R-squared.

CERTIFICATIONS AND LANGUAGES

Certifications: Python and Django Development; Machine Learning Fundamentals; DELF A2 (French)
Languages: English, Hindi, Urdu, French (DELF A2)
